

Vertical-type low gripping force chuck

VSP21

NEW

*Soft jaws not included

Gentle gripping
Dustproof and
waterproof
Low maintenance

Have you given up on automation because you thought you could only hold thin, easy to distort disk workpieces with a scroll chuck?

A new vertical-type 21-inch low gripping force power chuck for thin disk workpieces has arrived.

Gently grips large workpieces with low gripping force.

Gently grips workpieces without damaging them.
Static gripping force: 5-18kN

Dustproof and waterproof specifications

Ideal for use in environments exposed to dust such as chips and cutting fluid
(IP55 equivalent)
Can also be used for dry machining
※Not completely waterproof

Low maintenance

The adoption of a low-friction structure maintains stable low gripping force for a long period of time.
